

Table Of Contents

- Valorization of Algerian leguminous: extraction and characterization of alactomannans N. Bouhadi, N. Hachemi, A. Kahlouche , M. Djeziri ,M. Touabia ,A. Nouani	pp 706/713
- Modeling of Manganese (II) biosorption by a dead biomass in a fixed bed-column A. Madani, A. Selatnia, A. Chergui	pp 714/719
- Preparation and characterization study of an olive pomace - polyaniline composite conductor in the recovery of heavy metals by electrosorption and adsorption. N. Babakhouya ,M. Abdouni ,K. Louhab	pp 720 /727
- Formulation optimization and physicochemical properties prediction of E10 fuel K. Kirouani, D. El Hadi, R. Chemini, F. Hannane	pp 728/734
- Activation et caractérisation d'une Zéolithe HY utilisée en qualité d'adsorbant. H. Cherifi-Naci	pp 735/741
- Sustainable development in Algeria H. Lagha, A. Bachi.....	pp 742/749
- Valorization of tomato peel waste carotenoids in different oil matrices S. Zidani, A. Benakmoum, L. Haderbache, K. Hidous and S. Abbeddou	pp 750/761
- A comparative study of raw and treated peach stones for the adsorption of hexavalent chromium: characterization, kinetic and thermodynamic modelling F. Khemmari and K. Benrachedi	pp 762/770
- Etude de l'adsorption des composés phénoliques sur des membranes polymères à base de poly (vinyl alcool) / β -cyclodextrine D. Ghemati, D. Aliouche	pp 771/776
