The committee takes a decision to qualify the articles before sending them to the assistant editors. If the decision is negative, the article will be rejected on the platform and informed the author the reason for the rejection. The author can resubmit it taking into account the recommendations made;

3.2. Second step: In the event that the article is eligible for the evaluation (prepared according to the journal template and under the terms of publication), it will be sent in an encrypted state to the

Specialist Associate Editor, who in turn will submit it to two reviewers on its network. The reviewers will be responsible for judging the paper according to a standardized evaluation form available on the ASJP platform.

Note: The Associated Editor can also evaluate the article if he desired. The secretary of Journal provides the link between the authors of the articles and the Associated Editorials.

Then click "**Instructions for author**" on the left side of the screen.

If the article submission process is successful on the platform, a message appears on the screen showing that. At a certain stage, the author will receive in his email a notice of the submission of an article, and a notice to the second author in his email as a confirmation of participation in the article.

10. Notice of Rejection of the Article:

If it turns out that the article does not respect the template of the Journal and the conditions of publication. The author will be notified that the article has been rejected.
