On behalf of the Board, I am delighted to announce the launch of Volume 4, Issue 7 of the first journal dedicated to the African countries and Mediterranean region " *The North African Journal of Food and Nutrition Research (NAJFNR)*". An open access and international peer-reviewed journal, which publishes original (not previously published) work of exceptional quality and interest and which intends to give a wide-ranging coverage of research, views, and reviews on nutrition and its effects in relation to human health and disease. The *NAJFNR* will include all nutrition field research in humans and various disease model organisms and will be of interest to the basic researcher as well as to physician scientists and clinicians.

Sixteen (16) main specialties are involved:

- Food Composition and Dietary Intake Assessment;
- Epidemiology, and the Prevalence of Related Disorders such as Obesity, Diabetes, Dyslipidemias, etc.;
- Biochemistry and Cellular Metabolism of Nutrients;
- Dietary Strategies and Nutrition Education;
- Food Security and Challenges;
- Food Behavior and Quality of Life;
- Public Health Policy & Health Economics;
- Nutrition and Cancer;
- Food Chemistry and Engineering;
- Human and Clinical Nutrition;
- Food Processing and Packaging;
- Nutrition, Physical Activity and Sport;
- Infant, Child, and Adolescent Nutrition;
- Nutrition and Immune-regulation;
- Nutrition and Reproduction;
- Food Environment and NCDs;

The *NAJFNR* is published online with an option for open access. All articles will be promptly peer-reviewed by leading experts. We expect *NAJFNR* to attract manuscripts of the highest quality in order to be of the greatest possible benefit to its readers.

In this journal, we offer an opportunity for scientists across various disciplines in human nutrition and metabolism to share their knowledge and expertise to a wider range of audience. All articles will be accessible without any access boundaries to all internet users worldwide. The journal will certainly be competing head-on with a number of existing subscription based journals but clearly there is a niche for this new journal.

The *NAJFNR* has been recently indexed in interesting databases such as African Index Medicus and Arabic Impact Factors and has got 1.78 this year.

The *NAJFNR* is following the International Committee of Medical Journal Editors (ICJME) recommendations <http://www.icmje.org/journals-following-the-icmje-recommendations/#N> and is under the Creative Commons Attribution 4.0 International license (CC BY 4.0).

Table of Content

January - June: 2020: Volume 4: Issue 7. p 231-284

Original Article

Sports supplements: use, knowledge, and risks for Algerian athletes 231

Chebaiki I.J., Bekadi, A., & Bechikh M.Y.

Short Communication

The role of nutrition in strengthening immune system against newly emerging viral diseases: case of SARS-CoV-2 240

Khaled, M.B.. & Benajiba, N.

Original Article

Bioactive compounds and antioxidant potential of soft wheat and oat bran on the Algerian market 245

Meziani, S., Saidani, S., Labga, L., Benguella, R., & Bekhaled, I.

Original Article

Sprouting bioprocess as a sustainable tool for enhancing durum wheat (*Triticum durum*) nutrients and bioactive compounds 252

Jribi, S., Antal, O.T., Molnàr, H., Adányi, N., Fustos, Z., Naàr, Z., Kheriji, O., Amara, H., Debbabi, H.

Short Communication

Pre-exposure and Post-exposure new prophylactic treatments against COVID-19 in healthcare workers 260

Benarba, B. and Gouri, A.

Original Article

Statistical study of the relationship between hyperuricemia, dyslipidemia and type 2 diabetes in rural population of Tizi-Ouzou, Algeria 268

Lefsih, K., Dahmani, D., Cherrad, R., Lalaoui, S., & Amrar, S.

Original Article

Proteome consistency of the aleurone layer in grain of major wheat species grown over different years 280

Meziani, S., & Nadaud, I
