Heterogeneous Fenton-like degradation of synthetic dye using optimized layered double hydroxide. <i>Manaa Zoubir, Chebli Derradji, Bouguettoucha Abdallah</i>	1
Correlations between the production of hydroxyl radical/hydrogen and the maximum temperature and pressure reached inside acoustic bubbles <i>Nassim Kerabchi, Slimane Merouani, Oualid Hamdaoui</i>	14
Photodegradation study of salicylic acid by TiO_2 and TiO_2 -Cu synthesized. <i>Souhila Rabhi, Hayet Belkacemi, Naïma Lahouazi, Fatine Djabelkhir, Nawal Moussi, Drifa Benhammouche, Leila Ait Brahem</i>	21
Optimization of ultrasound assisted extraction as enhanced method for maceration of olive oil with rosemary essential oil. <i>Benmoussa Hasnia, Romdhane Mehrez, Bekrentchir Khalida, Benhamou Abdallah</i>	28
Study of the effect of various Superdisintegrants on Amoxicillin trihydrate orally disintegrating tablets <i>Lammari Narimane, Rabti Hadjira, Louaer Wahida, Meniai Abdeslam Hassen</i>	30
Regeneration of a solid waste from an agriculture-food industry <i>Chafika Meziti, Abdelhamid Boukerroui, Benoît Cagnon</i>	36
Removal and recovery of diethyl phthalate (DEP) onto activated carbon from Albizzia Julibrissin Pods: operating parameters effect and equilibriums modeling <i>Bouhamidi Y., Hachi W., Yennoune A., Nouri L., Kaouah F.</i>	40
Synthesis of strength hydrogel based on chitosan as drug delivery system with less cytotoxicity <i>Sarra Bensouiki, Fouzia Belaib, Abdeslam-Hassen Meniai</i>	45
Experimental study of the shrinkage phenomenon during the static and open sun drying of apple slices <i>Réda Khama, Amar Seghier, Sliman Rouas</i>	50
CFD Study of Mixing Characteristics in a Torus Reactor <i>Khalida Bekrentchir, Abdelkader Debab, Hasnia Benmoussa</i>	55
Optimization of the reaction time of transesterification of waste frying oil to biodiesel <i>Kerras H; Merouani R; Nekkab C; Outili N; Meniai AH</i>	60
